Practice Coaching for Primary Care Transformation Training - A Great Success!

The Institute and CareOregon have successfully concluded another Practice Coaching for Primary Care Transformation training. The training was a great success and we would like to extend a thank you to our June attendees for their participation! Registration for the second 2016 training that is being held from **Tuesday, November 1 - Friday, November 4, 2016** is now open. This four-day training is an orientation to, and comprehensive review of, the science of change in primary care practice and equips participants with the practical tools and coaching skills necessary to engage and support teams as they evolve into high performing Patient-Centered Medical Homes. For more information about the November workshop please email us at info@pcpci.org or click on the link below to register. [Register now >>>](#)

Screening & Treatment of Chlamydia in Primary Care

SEPTEMBER 21, 2016 | 8:00 AM PST

Chlamydia is the most commonly reported communicable disease and the most common cause of tubal infertility. Luckily, with the full implementation of three effective strategies, primary care providers can play the lead role in controlling Chlamydia and its sequelae.

Place Matters 2016 Conference

As the scope of the Medical Assistant role expands, it's important that both Medical Assistants and primary care practice administrators understand what Medical Assistants can contribute to a team and how their role directly influences patient outcomes. The Patient-Centered Primary Care Home online learning modules are a great way to get everyone on the same page.
