Partnering with CHWs to Improve the Health of Our Patient Population

As Community Health Workers (CHWs) gain further prominence in our health care teams, they are also the subject of various research efforts. In particular, researchers are

studying the efficacy, cost-effectiveness, and versatility of CHWs in public health and health care. A number of studies published this year report that partnering with CHWs is a cost-effective way to improve health outcomes in specific communities.

2016 Technical Assistance Learning Network Forum

JUNE 9, 2016 | Portland, OR

Are you a quality improvement professional, a practice transformation specialist or a primary care practice coach? Are you interested in sharing with, and learning from your peers? If the answer is yes, please join us on June 9, 2016 for the TA Learning Network Forum where primary care transformation professionals will have the opportunity to network and share their successful programs, strategies and tools. To learn more about this event and to register, email info@pcpci.org.

About Us

Thank you for subscribing to the Patient-Centered Primary Care Institute newsletter. The Institute accelerates primary care transformation in Oregon by bringing together health care providers, clinic staff, technical experts, patients, quality improvement professionals and others to share valuable knowledge and resources. To learn more about our work, visit pcpci.org.

The Institute is continually gathering valuable resources, tools and information to share with practices in all stages of patient-centered primary care home transformation. Find many other resources searchable by topic area, resource type or PCPCH standard [on our website>>>](#)

The Institute is a multi-stakeholder initiative managed by the
Oregon Health Care Quality Corporation.
